ADDRESS Adopted by the American Party, ATITS ANNUAL MEETING. June, 157.

ADDRESS. Called by the passing away of another year to meet the members of the American party in National Council, the occasion demands a reaffirmation of our opinions. We are ready to day as aforetime to give a reason for the taith that is in us, and as ready to day as ever before to stand last by our vows at devotion to our whole country. Neither dismayed by defeat, nor disheart ened by opposition-neither discouraged by the past, nor without hope for the future-we meet together both to counsel one with another, and to show to the people of the United States by our presence and our numbers here in open convention that as a pirity we are hopeful and determined as to our future course of action.

The dominant party at the North and the dominant party at the South, by appeals made to section.

tions of country and the passions of the day, are temporarily successful. But a temporary triumph is no evidence a permanent success. Nor does a victory secured by passion give evidence of true attachment to principle. A true soldier will never be disheartened in sustaining a good cause Decause of one or many detents
The nine hundred thousand American voters

who sustained the American candidates for the two first offices in the gift of the people in Nohonest work well meant and well done. The neither counted the cost of defeat nor faltered in the discharge of a great public duty, and had the thousands of men who agreed with them in from any provision of the Constitution, we seek opinion as to the justice of their principles and the fitness of their candidate acted upon the same and hearty obedience to its provisions. It is convictions of public daily, the result would have been far different. At the North, tens of thou-sands voted for Mr. Fremont upon the plea that there was no chance far Mr. Fillmore, while tens of thousands voted for Mr. Buchanan at the South upon the plea that a vote for Mr. Fillmore would secure the election of the candidate of the miscilled Republican party. It was a cruel and unealied for sacrifice of principle upon the altar of expediency, and one of those sacrifices of prin ciple which, it persisted in, in private life, as is sometimes the case, in the consideration of sub jects of great public moment, would result in common disaster. When patriotism becomes the rule of action and a true love of country points out the path of duty, nothing can excuse the yielding up of that which is right for that which

s merely expedient. We do not, however seek to recall anything in the past calculated to wound the feelings of those who were tempted in a moment of despon dency or thoughtlessness to forget their obliga-tions to their country or their associates in princi-

Thousands who left our ranks in November, drawn away by the temporary expedients and passions of the hour, have returned to the fold of the American party. They have heen taught in the bitter school of experience that the word of promise may be made to the ear and broken to the hope. Where there was a pledge to secure, and the power to effect a pure halled box — the the power to effect a pure halled box — the the power to effect a pure halled box — the the power to effect a pure halled box — the the power to effect a pure halled box — the the nation in order to sting and destroy it. Thousands who left our ranks in November, and the power to effect a pure ballot box-the the nation in order to sting and destroy it. want of which is one of the great evils of the times -- and to accomplish which ought to unite less magnitude also attract our attention the good men of all parties-there has been eith public domain, secured by a common treasure and er a criminal indifference to the evil itself or a a common sacrifice of blood and labor, the combold prarticipation in that wrong. So in the mon property of the nation is distributed without promises made at the North to secure a pure regard to the general ownership, and with a lavfranchise through the agency of a registry law ishness of appropriation which shows an atter in-where all could see and know who, under the difference to the just claims and true wants of the constitution and by the laws, were entitled to

an inteligent or honest exercise of the rights of wealth of the Republic, and to every citizen in the Even where au attempt has been Union? form under the naturalization laws, so that while the change would not extend the five years' resiless, secure a small portion of this limited residence before the alien was alowed to vote the attempt has failed, by the combined apposition of both the Democratic and Republican parties, who not unfrequently work together at the North destroy the American organization. And while chise for white voters, and an open and carnest opposition to all reforms, proposing simply remedial measures for admitted great public evils, there has also been enacted in New York a successful measure looking to such an amendment of the Constitution as would secure a general system of suffrage to the negroes of the State. Thus, in one part of the Union a State Constitution is opened to sustain the question of negro suffrage, while in another part of the Union the alien has had conferred upon him privileges wholly un known to the native-born citizen. To day a foreign pauper or a foreign criminal, driven or banished from the pest or prison houses of Europe, is made in ture all things, and regardless of his residence in the country, an equal with the citizen whose service has been life-long, patriotic, and useful in the land of his birth To morrow. rain, States in another sec tion of the country become revolutionary in their plans of opposition to the Federal Government, and exhaust their patriotism and labor in meas-ures of mere speciality and favor for the negro.

We seek to avoid such analomies of legislation in both our Federal and State governments.— Their tendency is neither toward humanity nor mercy. They benefit neither the white nor the black race and, whether well meant or ill meant, result in that spirit of strife and uncharitablenesin different States and among different classes of people which the true men of the country canno

Higher aims and nobler objects animate the American party. We know of no political differences between the rights of the North and the rights of the South. All are subordinate to th constitution of o r common country. The union of the States, the rights of the States, the privileges of the people in the States, and under the ion, is our chief glory and our greatest good .-When differences of opinion come, as came they will, they must be settled, not by crimination and hate, but hy reference to that great principle of common right and common protection-THE CONST TUTION OF THE UNITED STATES; and if there shall unfortunately again he differences of opinion as to what is granted and what is denied by the constitution, the judiciary of the land, through the authorized courts of the nation, can alone make up and decide the final issue. The constitution and the law must. therefore, at all times and

in all places become our rule of action.

Toleration of opinion, the freedom of speech

and of the press, the right of the people peacea. oly to assemble and petition the government for a redress of grievances, are among these specifi ed constitutional personal rights, and cannot be abridged except as the obuse of these privileges is restrained by the laws of the land. Equally exolicit are the rights of the States over their own derritories, and interference with them becomes contain importinence. If all men in all sections of the country, could realize where their powers commence, and where they cease—if they could inderstand that they are no more responsible for ther men's sins than they are secure in their own elf assumed virtues, all would be comparatively

There are many and vitai questions upon which the west.

The air many and vicing agree, and to these all other subjects should be subordinate. They are, in brief, condensed in the following spirit of our National Platform. We hold, for example, as cardinal maxims of public justice and private duty, to the following rule of faith and action:

1st. The Federal Union must be maintain

2d. The reserved rights of the States must be

4th. The union of Church and State must be

5th The rights of conscience must be guaran 6th. American interests must be promoted. 7th. An American nationality must be cherish

5th. Sectional agitation must be terminated. 10th. The naturalization laws must be amend

11th. "Squatter Sovereignty" and alien suffrage must be repudiated.
12th Americans must rule America.

There is nothing here not taught in the Constirugnant to the spirit and letter of that instrument in the spirit and letter of that instrument in the spirit and letter of the Constitution which requires the President of the United States to be a native born citizen-which require the Vice President to possess the same qualifica-tions with the President—which, in the foreign born imposes a nine years' residence, after na turalization, as qualification of a candidate for the United States Senate, and a residence of seven years, after naturalization, as a qualification for a Representative in Congress—which for oids test out is for office, and the maintenance o an established Religion, are all part and parcel

and hearty obedience to its provisions. It is, above and beyond all other records of political creeds, the platform of the American party. But we cannot shut our eyes to other issues which have been forced upon us by the Democratic party, which is not only not what it was in times ast, but which seems to have outlived its con-stency, its usefulness, and its virtues. It has different faces for different parts of the country and different phases to illustrate its many creeds It has involved the government in great difficulty and no man feels secure in the future while this party is in power. Uunder Democratic Adminis trations there has been an open violation of law in the Territory of Utah. A social system which would have disgraced the darkest ages, utterly re-pugnant to civilization, reflecting the highest dishonor upon the government, a festering sore upon the political body, and every day growing from bad to worse, exists and has existed for four years past within the borders of our own government. We condemn this outrage upon morals and humanity, and desire to see the nuisance abated We trace it, however, as one of the nat-ural ills incident to that system of administration which seeks to fill the nation with criminals, pau

Kansas Affairs.

Our readers have been apprised that great have petitioned Gov. Walker to give the actual residents of the Territory the direction of their own affairs, and he, after enquiring into the charges brought against the pro-slavery party has concluded to throw out the entire vote of the Oxford precinct. But the following protest and proelamation will explain the whole matter:

To his Excellency R. J. WALKER, Governor, and the Hon. FRED. P. STANTON, Secretary of the Territory of Kansas:

The undersigned, citizens of the Sixth Council and Tenth Representative Districts, in the said Territory of Kansas, beg leave respectfully to represent, that at the election, held on the 5th inst., for Delegate to Congress, members of the Legislative Assembly, and other public officers, rialists have good eause to believe, and do believe, law. there were not to exceed one hundred legal votes. They have information in which they place full confidence that on the 5th day of October there were only about 91 votes polled, that on the day following, when it is purported some 1,535 votes were polled, there were no considerable number of persons in attendance or around the polls through the day; indeed, they have information that not to exceed from twenty to thirty persons were around the poils of the said Oxford preciuct at any time during the 6th day of October. They would further state that they have satisfactory evidence that the population of Johnson county is too sparse to contain a population so great asis represented to be polled at that precinct. They are assured, too, that a vast majority of the names attached to the returns are not known in Johnson county. To this they would add that the said Oxford precinet is situated on the borders of the Territory, within a few rods of the Territorial line, and that the town of Little Santa Fe, in Missouri, is contiguous to said precinct and that if any such number of votes were polled, your memorialists believe they were polled by non residents of the Territory of Kansas. They also are confident that such a large number of votes could not have been polled at one precinct, and by one set of officers, within the time limited

We would also state that Johnson county, and Oxford precinct in particular, is within the limits of any Indian Territory, which is specially reserved by the organic act out of the Territory of Kan sas; that such Territory was unopen for legal settlement on the 5th and 6th days of October last, and remains the same at this time, that no legal settlements can be made within said reservation now, nor could not on the day, nor at any time prior to said elec-

Your memorialists, legal voters of said Representative and Council districts, would respectfully PROTEST against the vote of said Oxford disrict being counted in the returns of the Eighth Council and Tenth Representative districts, or for Delegate to Congress, for the reasons of fraud and illegality set forth in the above, and for may suggest, to inquire into the trnth of our said allegations, and to do such other things in the premises as will secure us against fraud, and give to the actual bona fide residents of the Perritory and districts a voice in directing their own affairs. All of which is respectfully submit-

Upon receiving this protest Governor Walker and his Secretary, Hon. Fred. P. Stanton, went in person to the preciuet at which these frauds were said to have been committed. The sub joined proclamation constitutes their report:

PROCLAMATION. To the people of Kansas.

LECOMPTON, October 19, 1857. By the 32d section of the organic act establish ing this Territorial government, it is provided in reference to the election of a delegate to Congress, that "the person having the greatest number of votes shall be declared by the Governor to be duly elected, and a certificate thereof shall be given

By the 16th section of the act of the Territorial Legislature of Kansas, entitled "an act to regulate elections," it is made the duty of the Secretary to examine the returns in the presence of the Governor, and to "give to the person having the highest number of votes in their respective dis triets, certificates of their election to the Legislative Assembly."

Under these two provisions of the laws prevailing in this Territory, the recent general election has presented for the joint consideration of the Governor and Secretary, a question of the gravest importance, not only to our own people, but also to those of the whole Union. This question arises upon the extraordinary returns made from the precinct of Oxford in the county of Johnson. What purport to be the returns of the election held at that precinct on the 5th and 6th instant, have been received by the Secretary, containing sixteen handred and twenty-eight names of preon to be made of this supposed vote is rendered all important by the fact, that the politi cal character of the Legislative Assembly will be controlled by the addition of three Councilmen and eight Representatives, to the strength of one party or the other, according to the adoption or rejection of the returns in ques-

In point of fact it is well known that even the whole county of Johnson, comprising, as it does, part of an Indian Reserve, which, upon examination of the law, we find is not yet subject to setthe ment or pre emption, can give no such vote as that which is represented to have been polled at this inconsiderable precinct of Oxford. But while his unofficial knowledge, well established and universal as it may be, could not become the ground of decision and action upon election re
tion of the law, we find is not yet subject to set the ment or pre emption, can give no such vote as the new growing larger, and becoming this family, who are now in New Liberty, Ky., and were only awaiting his arrival here that they might join him. Mr. Cunningham removed to this place from the eaverous mouth—and she sees no more! Insensibility comes to her aid, and she lay always to the folds of the reservation. ground of decision and action upon election re- this place from Frankfort, Ky. turns, in themselves regular and authentic, the

and impartially made, has brought us to the conclusion that the returns from Oxford precinct in Johnson county must be wholly rejected for the

township.

Influeuced by these considerations, and imties, we deem it essential to truth and justice that we should ascertain every fact calculated to refute or confirm the conclusions derived from the face of the papers. Accordingly we went to the those of the neighboring village of Santa Fe, were astounded at the magnitude of the returns; tle, burning, piercing, faseinating glean, such tion, not having heard the alleged result until several days after it had occurred.

In the course of our journey to and from Oxford we passed over much the larger part of the county of Johnson, and we became thoroughly satisfied that there is no population in the whole county from which more than one-third the vote that single precinct could have been given. We limbs felt momently more and more i learned that some very few persons, having cabler blood grew cold, and she seemed to ins on the reserve in Johnson county, and claiming a residence therein, though generally absent, nd voted at some of the precints in that county but we are convinced that a very inconsiderable mber, not reaching, we believe, one hundred, other reasons which may appear. They ask His of Missourians or other persons having no ad-Excellency, the Governor, and His Honor, the Secretary, to take such action as their judgment ercise that right, anywhere within that county. ercise that right, anywhere within that county. The people of Missouri cannot be justly charged with any interference in the late election, nor are they in any degree complicated with the evident ly fraudulent returns made from the precinct of Oxford. Those returns, beyond all doubt, are imulated and fictitious.

Under these circumstances, we do not feel emthe polls In the event of such consequences, we might hesitate to reject a vote upon any defect of form, however essential in law. But in the present case, we feel ourselves bound to adhere to the very letter of the law, in order to defeat a gross and palpable fraud. The cousideration that our own party, by this decision, will loss the migrity in the foreighting Assembly. lose the majority in the Legislative Assembly, does not make our duty in the premises less solemn and imperative. The elective franchise would be utterly valueless, and free government tiself would receive a deadly idow, if so great an itself would receive a deadly idow, if so great an order to the deadly idow if so great and the deadly idow is solved by deadly idow if so great and the deadly idow is solved by the so of mere forms and technicalities. We cannot conset, in any manner, to give the sanction of our respective official positions to such a transaction. Nor can we feel justified to relieve ourselves of the proper responsibility of our offices, in a case only to wind himself from his coil, but only to wind himself up again into museular rings, where there is no valid return, by submitting the his great flat head rising in the midst, and slowly

cide upon their own election.

In view of the condition of affairs in Kansas which once heard, is remembered forever. The reptile all this while seeming conscious of, and to to put in operation here a revolutionary government, and of the fact that this effort was suspended under the belief that the political difficulties of this Territory might at length be first that the political difficulties of this Territory might at length be first that the political difficulties of this Territory might at length be first that the political difficulties of this Territory might at length be first that the political difficulties of this Territory might at length be first that the political difficulties of the political diffi ties of this Territory might at length be fairly adjusted at the polls; if that adjustment should now be defeated and the people deprived of their rightful power under the laws of Congress, by would become impracticable, and that civil war of flight. THOMAS M. GREEN, Editor. FRIDAY,.....OCTOBER 30, 1857.

The Frankfort Commonwealth, after advo cating for some time a continuauce of specie payment on the part of the Kentucky banks, recommends an immediate suspension as the only hope of relief from existing evils in our monetary affairs .- Lou. Journal.

If our respected cotemporary of the Journal will just make a slight alteration in the above paragraph by substituting the name of his owu paper for that of the Commonwealt, he will have hit the nail exactly on the head, and, moreover. have given it a pretty hard lick. We never did advocate a continuance of specie payment by the Kentucky Banks, although all of our articles were enlculated and designed to inspire confi dence in the minds of the people in the ability of the Keutucky banks to meet all their engagements, and to give an assurance to the people that the banks could and would redeem their notes when presented-and we did this in order to secure business men against the slanderous misrepresentations of the "assorting brokers." who, by discrediting the banks, were inducing the holders of Kentucky bank notes in other States to sell them at a discount. The fact is, that, until our last issue, we gave the banks no advice upon the subject,-whether to suspend or notand we did not meddle in the matter simply because we greatly doubted our ability and right to dictate to or advise the ablest financiers of the eountry upon the course to be pursued in such an important juneture.

But although we never contended for the eon tinuance of specie payment on the part of the banks, nor yet advised a suspension, but until recently remained entirely silent upon the subject. we clearly set forth the truth, which must be ap parent to every one, that the banks could not with safety loan out their notes as long as the "assorting brokers" continue to return those notes for redemption almost immediately after they were issued; and, therefore, we poured as much hot shot, grape, and cannister, as we had in our magazine, into those pests in order to induce them, if possible, to cease their practices which were bringing ruin upon thousands, or, at any rate, to persuade the merchants and farmers not to deposit with them. Every one knew that an expansion by the banks was necessary in order to enable the commission merchants to move the grain and cotton of the country to a market, and most people thought and still think that there would be no relaxation of the existing stringency in financial affairs until the grain and cotton is moved; and it was perfectly apparent to us that the banks could not expand, make new loans, and renew old ones, and at the same time stand up under the run made upon them by the brokers. Hence we blamed the assorting houses and not the banks for the contraction and all the attendant evils. That that contraction has been the source of many of the evils under which the eountry groans is undoubtedly true, but it was unavoidable as long as the panic preyed upon the minds of the people and the brokers preyed upon the purses of the credulous and the vaults of the banks, and as long as the banks under these circumstances continued specie payment. We could not, under all the circumstances, blame the banks for refusing to loan out their notes again after they had once redeemed them, but, as long as they continued specie payment, thought them justifiable in placing those notes in the safe not to be again thrown out for the profit of the Shylocks of Third Street, Cin einnati. It was evident to us that the banks could not expand without a suspension, but that they must continue to contract, and we did not

deem them eulpable in so doing. But it has become evident to us that an expan ion is absolutely necessary in order to prevent a great depreciation in the values of property of every description, and in order to prevent whole eommunities from falling into the deplorable condition of bankrupts in fortune and in name; the banks cannot expand while the "assorting brokers" continue to run upon them, and there is no legal way to prevent these Shylocks from doing so as long as the banks continue specie payments. -for such men are dead to all feeling of shame and remorse, they would willingly plunge the country into ruin and starve thousands of women and childien in order to gratify the sordid cravings of their avaricious souls. Then, in order to get an expansion we must have a suspension, and we had much better have it at once, while the bank vaults are full of specie, than to wait for a month or two longer and then be compelled to suspend at last, when the specie shall have been taken from the banks and they shall be left without the power to resume at the appointed time for the other banks to recommence paying specie. If they do continue to hold out, the people will suffer greatly for want of an expansion, the most gloomy pictures which have been drawn in the imagination of croakers will become sad realities, the banks \$175. will be compelled to suspend at last when it may be too late to avert the catastrophe, and the de lay will only work for the benefit of the Shylocks of Cineinnati. The banks might, perhaps, secure a little more fame by holding out, but this is not to be weighed against the good of the communitv. who almost unanimously desire an immediate suspension, accompanied by a reasonable expan eion. This is our position now, and, as the Journal says, our arguments from the very beginning have "furnished eogent reasons for immediate suspension," and our cotemporary and ourself now more nearly agree than either of us have

But, if our memory does not play us a sorry trick, we remember that the Journal some weeks ago took a Cineinnati paper severely to task for endeavoring to force the banks of Kentucky into a suspension. In fact, it seems to us, that, until very recently, the Journal was much opposed to a suspension and evidently looked upon it as a course to be avoided. And it did really strike us that the Journal did not so much blame the New then offered an expansion, as it did for not hav ing expanded before suspension, and appeared to der, and presented by him to the Emperor. pend because they did not at first expand, without a suspension, instead of contracting. The Journal's the seraglio. argument was that the depositors became indignant at the New York banks for not having exraged at them for not expanding, might treat emigrants, who, alarmed at the hard times, return as it is certainly an invaluable medicine. them in the same manner. In fact we thought home.

from the tone which the Journal had once held, that the article from which we took an extract ontained a demand that the banks should disregard their own interest and expand at once with- Cesarewitch Course (2 miles, 2 furlongs, 28 yard out suspension, and intimated that if they did not their depositors would compel them to suspend. And, taking this view of the Journal's article, we endeavored to demonstrate that which is adnitted to be true, that the banks cannot expand and at the same time redeem their notes in speeie one week after they are issued. But we may, after all, have misapprehended the purport of the Journal's remarks, and we may have been pursuing the same end all the time. However this may be, whether the Journal was wrong or not, most certain it is that it is now on the right track, and we agree with it that the first step towards a remedy for all the evils which threaten us is to stop the ontraction by an immediate suspension of spe

IP In the Lexington Observer of Wednesday, we find the following good report from the Northern Bank of Keutucky:

Northern Bank of Kentucky, Lexington, Oct. 27, 1857. At a meeting of the Board of Directors of this

stitution, held at their banking house this even ing, the following resolutions were unanimously Resolved, That, in the opinion of this Board,

he Northern Bank is now able to offer reason able facilities for carrying to market the products of the State, and will co-operate with the other nanks in so doing.

Resolved, That this bank will increase their dis

counts for the above purpose to the amount of five per cent. on the whole capital prior to the lat day of December next, and do recommend the remaining banks of the State to adopt a similar Extract from the minutes

A. F. MAWKINS, Cashier.

This will doubtless be a great relief to the buiness men, but not near the amount which is necessary. If the Northern Bank of Kentucky can expand to the amount of 5 per cent. on its entire capital and continue specie payment, how far could it expand safely if specie payments were suspended? They must come to a suspen sion at last, or the country will be ruined.

INPORTANT DECISION UPON A RAILROAD CASE .-Judge McLean delivered a long decision at Cincinnati, Ohio, on Monday, in the U. S. Circuit Court of Indiana, upon a motion to appoint a Reeciver for the New Albany and Salem Railroad Company, in the case of Dow Williamson, Treasurer, &c., vs. the N. A. &. S. R. R. Co. The Judge decided-1st. That a Receiver need not be appointed simply because there was a default in the payment of interest upon the bonds of the Company. The law abhors a forfeiture, and would never enforce one. 2d. The fact that the Company has paid all the net earnings (saving the annual surplus) to liquidate its floating debt, did not justify the Court in holding that this was a misapplication of the earnings, for, if that debt was contracted to finish the road, or to re lay the track, then it was beneficial to the boudholders and all concerned. 3d, That the Court would not take the road out of the hands of the present managers, for it was apparent that they had managed the road with fidelity and integrity. The Court then made an order, directing that in fu ture the net earnings of the road should be apapplied in equal proportions to the payment of the floating debt and the interest upon Bonds.

CARRYING DEADLY WEAPONS .- We agree with our cotemporary of the Baltimore Patriot, that by him in Eugland. this evil and dangerous practice canuot be two strongly condemned. It is the fruitful source of outrage and murder. We have often heard judi cious persons say that they refrained from carry ing deadly weapons, even in self defense, be cause they could searcely trust themselves in moments of extreme excitement. Of the Middlesex Company, we are authorized o make no statement, except that they have not yet decided what they shall do. The Lowell Company have stopped all their

tton works. Something more than three-fourths f the works in the carpet department are running This company has also given notice that the wages will be reduced. The reduction is not uniform, but varies on different kinds of

From the London Time's City Article, Oct. 13. The Bank of England have to-day raised their

rate of discount from 6 P cent., which was adopted on Thursday last, to 7 P cent.

This measure was fully anticipated, and, from the extent of the applications to day, it is doubtful if a further movement will not immediately be found necessary. The amount of bullion withdrawn has been only £9,000, but it is assertd that £400,000 will be dispatched to New York and Boston by the Baltic and Canada on Wednesday and Saturday next, and, as the Indian exchanges show an adverse alteration of 1½ per cent. at Bombay and 2 per cent. al Calcutta, it is also anticipated that the shipments in that direc-ion by the overland mail of the 20th will be arger than was at one time thought probable With these prospects a fresh advance can searcely e avoided, and perhaps we may again see the rate of 8 per cent., the highest point it has ever eached during modern experience, and at which t stood in October, 1847. In proportion, howver, to the suddenness of the pressure will be he rapidity of the ultimate reaction, and, as on that occasion the rate within a year afterward weut back to 3 per cent., there will in the present ease be reason to look for an extraordinary turn of the tide as soon as the immediate difficulty hall have been completely mct. Notwithstand ng the tempting rates of exchange at New York and Calcutta, the transmission of specie thither nder existing circumstances must be a haz irdous peculation, since the question in each instance s not what may be apparent profit, judging from the present advices, but what will have been the course of the markets in the interval before the

peration can be carried out. In America the arrears now due to England and the Continent are enormous, and are accumulating every week, and the moment the panic subsides and the influence of the fortnight gold arrivals from California again begins to be felt, the scarcity of hills upon us may be as remarkable as their present abundance. In India, likewise, the falling off in the shipments of produce, and the demand upon the Government of payments to English steam, companies for the trans estoring more favorable conditions. There is, nsequently, nothing to excite apprehensions

that the disturbance will be protracted. The discount houses have increased their rates advance of 34 per cent. The national dis count company have notified that their terms are respectively 61, and 61, per cent. The rate of the joint-stock banks for deposits will be 6 per

From all parts of the continent there are ac counts of increasing pressure, and at Frankfort, Berlin, Vienna, and Turin, the banks will disount only short paper, and that in certain limit

d amounts for the several applicants.
The reports of the trade of the manufacturing ring the past week show considerable dullness, in consequence of the increase in the ates of discount and the losses from American failures. At Manchester business has also been again effected by the stoppage of several silk uses. Birmingham is stated thus far to have scaped very well the effects of the New York Legislature. risis. Bradford, it is feared, has suffered to some extent, and at all points the cessation of orders rom the United States is likely to cause inac tivity during the next few months

The following is a comparative statement of the value of certain exports from New York Postroned-The silly hot-heads who recently count of her old banks is being surely and rapidly from the commencement of the year to Oct. 22: 1856. 1857. Increase. Decrease. \$4.521,931 \$4.533.978 \$12,047 \$6,334,694

5.655,362 162,431 3,373,977 11,994,056 237,677 9,745,006 2,536,148 1,461,369 727,176 902,653 946,159 2,060,076 Total, \$36,041,058 \$20,822,946 \$12,047 \$15,230,154

The above is a striking illustration of the effect of high prices in the European markets. In quantity, the falling off was much larger, as priees of breadstuffs and provisions ruled much higher this year than last.

> "It is the intention of his council to move an arrest of sentence on the ground of insanity. It is intended to be shown that the prisoner has monomania for small pilfering. Evidence will be adduced to establish his blameless character all the relations of life except in respect of one nfirmity-that of taking small sums of money belonging to others, without motive. It will be shown that he has executed various important trusts with scrupulous honesty, and probably in stances of petty theft will be adduced other than defect in the mental constitution of the prisoner It will be remembered that the defense of ington, the New York forger, was based on a presumed aberration of this sort.

Sr. Louis, Oct. 28. At a Democratic meeting held at Lecompton K. T., on the 20th, resolutions were ad

strongly condemnatory of the action of Walker and Stanton in rejecting the returns from Oxford precinct, Johnson county. The course of the Governor and Secretary is characterized as high handed and illegal and a usurpation of power be longing only to the Legislature.

> New Constitution of Oregon.—The new con stitution of Oregon bids fair to contain some curious features. One of these, prepared at the last dates, in the convention, was to abolish the grand jury system, on account of its expense and in quisatorial character, and substitute therefor the result of examinations before justices of the peace. Another is to make the Governor ex-

officio treasurer of the State, to have no Lieuten ant Governor, and to make the Secretary of State Governor pro tem, in case of the death of the Executive. A third novelty is the limitation of the number of the State Senate to afteen, and of the Assembly to thirty, with biennial sessions A fourth is the viva voce system of voting at al

public elections. This has been done all along in Oregon, and is the Old English plan, adopted thence into Virginia, and from Virginia carried westward through Kentucky and Missouri to Oregon. The voting is done in the same way in Kansas. There are some other interesting fea tures which may be briefly stated thus: Judges of courts are rendered ineligible to any office other they may have been elected, and for one year thereafter; towns and cities are prohibited from contracting debts for any purpose whatever; banking charters are absolutely prohibited, so that the business of incorporate banking will not be recog-

If It was computed in England that the Per sia would bring to the United States on her next trip £400,000-nearly \$2,000,000,

The tax to be paid this year by New York amounts to \$15,603,748; a pretty good sum, considering the hard times.

A BAD FELLOW CAGED .- Yesterday, an officer from Christian county, Ky., passed through here on his way to Frankfort, having in custody one P. Domeatus, a sort of Mexican, who was convieted to the penitentiary four years for horse On his arrival at the institution at Frankfort, he was immediately set to work pick-He is said to be a very sharp fellow, as well as a great rogue, and had nearly succeeded in breaking jail and giving leg bail for his term of service.—Lou. WILLARD'S
PATENT PLANTER & SOWER.

THIS is an Ingenius machine, for which letters pat ent were granted to Mr. Hozza William in slay last. It was exhibited during the last-easts at several State Fairs, always commanding universal admiration. Large quantities are now being manufactured tor use during the coming spring, and it is believed that a machine hat accomplishess of great a saving of labor, must at once come into general use. It is especially adapted for the South, and our enterprising planters will find it worthy of their attention. The unchine is of about the size of an ordinary cart. The following description is from a fate number of the United States Journal:

"To the agriculturist this is, undoubtedly, the most valuable patent that has been issued for many years. It is intended for sowing broadenst, covering and harrowing at the same time, for sowing in drills and also for planting in hills, and will accomplish either object as well as could possibly be done by hand. The grau is sould possibly be done by hand. The grau is well as could possibly be done by hand. The grau is motion for the whe loof the eart. As the holders rotate the grain passes out through the screens to the ground. The seed are evenly distributed and the machine may be regulated to sow any given amount to the acre with perfect accuracy. The again is covered by the revolving harrow, which receiv a its motion from the cart wheels. This harrow revolves with great rapidity in the opposite direction from its forward motion, thus harrowing the ground instead of untiling it down, and tearing to pleese any stubble, solds and mannie, and tearing to pleese any stubble, solds and mannie, and tearing to pleese any stubble to display them together in bunches as with the common harrow. These Farms and Lots are sold so cheap to induce settlements, a suificient number being reserved, the Inincrease in the value of which will compensate for the apparent low price now asked. Upwards of 135d lots are already sold and a company of settlers, called "The Rappahaniock Pioneer Association," is now forming and will soon commence a sentiment. Ample security will be given for the lathful performance of contracts and promises. Venry 45,000 acres of land, in different parts of Virginia, now at command and will be sold to settlers at from \$1 np to \$300 per acre. Unquestionable titles willin all cases begiven. Wood-enters, coopers, farmers, &c., are wanted; and 500 agents to obtain subscribers, to whom the most liberal inducements will be given. Some agents write that they are making \$200 per month. For full particulars, subscriptions, agencies, &cc., \$310,000 Worth of Farms and Building Some agents write that they are making \$200 per nth. For full particulars, subscriptions, agencies
